Can you move the documents you recommend to be posted to the website into corresponding site folders on our shared OneDrive and I'll have someone add them. I'll then check that the records are in EPA's SEMS database as they'll be linked from there.

**Subject:** EPA Triple Site website documents

Hi Michael,  
I have the following document recommendations for additions to the Triple Site website:

- Add updated access approval form to the Community Involvement tab. Currently, the access approval form uploaded is from 2018.
- The 2019 Annual Groundwater Monitoring Report prepared by Locus should be included along with EPA comments and response to comments. What is the status of that report? Did that get approved by EPA? Only the 2018 documents are currently online.
- Updated Triple Site Fact Sheet – I'm not sure if this is still a priority for EPA. However, with work resuming in the OOU, I think it would be nice to have a 2020-2021 version available since current Face Sheet is dated April 2016. The public/community may view this as being outdated, especially with the public release of the new ASAOC dated 2019. If we cannot do this, then at a minimum the April 2016 Fact Sheet should be included on the website.

Thanks, Cynthia
